

## INSTRUCTIONS

GEK-41812  
Insert Booklet GEH-1788

### TIME OVERCURRENT RELAY

TYPE IAC

MODEL 0208A8406

#### INTRODUCTION

This instruction book along with the GEH-1788 instruction book form the instructions for the 0208A8406 relay.

#### DESCRIPTION

The 0208A8406 relay is similar to the 12IAC53B (100 series) relays except that a special control spring was used on both the target/seal-in and the instantaneous units to increase their seismic rating.

The special control spring increased the target/seal-in unit pickup from 0.2/2.0 amperes to 0.4/4.0 amperes and increased the instantaneous unit pickup from 10-40 amperes to 17-62 amperes.

The burden of both units remained the same as listed in GEH-1788 for the 0.2/2 ampere target/seal-in unit and the 10-40 ampere instantaneous unit.

These instructions do not purport to cover all details or variations in equipment nor to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the General Electric Company.

POWER SYSTEMS MANAGEMENT DEPARTMENT

**GENERAL  ELECTRIC**

PHILADELPHIA, PA.

# GENERAL ELECTRIC INSTALLATION AND SERVICE ENGINEERING OFFICES

## FIELD SERVICE OFFICE CODE KEY

- \* Mechanical & Nuclear Service
- γ Electrical & Electronic Service
- † Marine Service
- X Transportation

FOR YOUR LASTING SATISFACTION . . . with the performance and availability of your General Electric equipment, GE provides this nationwide network of field service offices, serving utility, industrial, transportation and marine users. Qualified field engineers provide installation, start-up, employee training, engineering maintenance and other services, throughout the productive life of the equipment. For full information, call your nearest Installation & Service Engineering office.
