A.C. UNDERVOLTAGE RELAY

TYPE NGV

MODEL 12NGV11D(-)A

INTRODUCTION

These instructions plus those included in GEI-90805 form the instructions for this relay.

DESCRIPTION

Relay model NGV11D consists of three NGV type AC undervoltage units mounted in a small double ended drawout (S2) case. Model NGV11D is similar to model NGV11A described in GEI-90805 except the internal connections are as shown in figure 1 of this supplement.

These instructions do not purport to cover all details or variations in equipment nor to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the General Electric Company.
